STYLES 110, 120

McGHAN MEDICAL
BIOCELL® TEXTURE

INTRASHIEL® BARRIER

SILICONE-FILLED BREAST
IMPLANTS

STYLE 110

STYLE 120

- BIOCELL® texturing may help to reduce the risk of capsular contracture and promote tissue adherence to help maintain proper implant positioning.
- INTRASHIEL® patented barrier shell significantly reduces silicone diffusion.

NOMINAL DIMENSIONS: Implant dimensions are measured with the implant placed on a flat surface. Note: not every implant will conform to the dimensions given. Slight variations may occur.

PRODUCT SUPPLIED STERILE. SOLD AS SINGLE UNITS.

Please refer to the package insert supplied with each device for warnings, precautions, adverse reactions and instructions for use. Literature references available upon request.
